

Housing Units Authorized by Building Permits in North Dakota: 2001

New housing units authorized for construction in North Dakota increased 26.3 percent from 2,128 units in 2000 to 2,687 in 2001. Total value of these units increased 26.6 percent to \$240,815,000 in 2001, up from \$190,197,000 in 2000.

Florida, Texas and California captured nearly 30 percent of all new housing units authorized for construction in the United States in 2001.

In 2001, single-family homes comprised the majority of new authorized housing in North Dakota (55 percent). The value per single-family home authorized for construction in North Dakota averaged \$122,501 in 2001, ranking North Dakota 16th lowest in the nation. Nationally, the value of a new single-family home authorized for construction averaged \$137,595. California reported the highest average value per single-family home at \$188,642 and Mississippi the lowest at \$101,346.
