

# Eyeball Diameter Distribution in a Set of Fetal Calves 100 to 151 Days Pregnant

Eyeball Diameter	Number of Calves	Predicted Breeding Cycle
Less than 15 mm	3 calves	Third
15-16 mm	7 calves	Third or Second
17-18 mm	13 calves	Second or Third
19-20 mm	10 calves	Second
21-22 mm	3 calves	Second
23-24 mm	2 calves	Second
25-42 mm	0 calves	Second
43-44 mm	2 calves	AI calves

An additional 33 calves, the majority breech, could not be measured and are potentially the additional AI sired calves. Data will be verified at calving time.
