What is the *Father Times* parenting newsletter?

Father Times is an educational newsletter series designed to provide fathers and father figures of young children with quality information and ideas about healthy parenting and child development. It also is appropriate for mothers or other caregivers of young children and community professionals.

This parenting newsletter resource specifically focuses on fathers and father figures for the following reasons:

- Fathers and father figures are more likely to get involved and remain involved in their children's lives when their children are young.
- Fathers and father figures are more likely to respond to parent education if it focuses specifically on them as fathers rather than on parents in general.
- Parenting newsletters are generally a low-cost, high quality method of delivering information to fathers and father figures in a convenient fashion. This makes it possible to overcome work, time or other barriers to fathers receiving information.
- Research has shown that parenting newsletters can be very effective in increasing knowledge, changing attitudes and improving behavior among parents.
- Fathers and father figures contribute significantly to a child's development and well-being when they are involved in positive, meaningful ways. Such an approach recognizes this fact and attempts to encourage responsible father involvement.
